3RM Ethiopian Entrance Exam

2016 EUEE Answer & Short-Explanation Workbook

Physics omitted as requested

Important accuracy note

The uploaded exam papers are mostly image scans. The text extraction available from them does not reliably capture the question text and answer choices. I have therefore not invented answer letters or explanations. This file records the scope and verification status rather than pretending to be a completed answer key.

I can prepare the full answer key only when the question text and options can be read accurately. Answers should match each original question number and its exact choices, especially for mathematics and science calculations.

Papers included in the requested scope

Subject	Uploaded paper	Status
Biology	File labelled PHYSICS_2016…	The pages are headed BIOLOGY; treated as Biology, not Physics.
Chemistry	CHEMISTRY_2016…	Paper detected; questions need reliable OCR/visual verification.
Mathematics	MATHEMATICS_2016…	Paper detected; questions need reliable OCR/visual verification.
English	ENGLISH 2016 EUEE FOR N.S by EthioMatrichub.pdf	Included in scope; question text needs verification.
Aptitude	APTITUDE_2016…	Paper detected; questions need reliable OCR/visual verification.

Answer format planned for the final key

- **Question number** — kept identical to the original paper.
- **Correct option** — letter and answer text, after checking the choices.
- **Short explanation** — one to three clear sentences, including working for calculation questions.
- **Unclear item marker** — used only when the scan itself prevents a reliable reading.

No Physics section has been added, as requested. The Biology paper is identified by its printed page header, even though its uploaded filename contains “PHYSICS.”
